Merchant Acquiring & Settlement Agreement

Synthetic production-like agreement for verification and control testing

Merchant	NovaCart Commerce Private Limited
Provider	Meridian Payments Technologies Private Limited
Agreement ID	MPT-NC-2026-041
Effective date	1 January 2026
Base currency	INR

CONFIDENTIAL - SYNTHETIC TEST DOCUMENT

This document is fictional and generated solely for software testing, demonstration, control compilation, reconciliation, and audit workflows. It is not a contract issued by Razorpay or any real payment provider.

Control-ready clauses include effective-dated MDR, GST, settlement SLA, refund integrity, unlisted-fee restrictions, and chargeback fee terms.

1. Parties and Definitions

1.1 Parties

This Merchant Acquiring & Settlement Agreement (the "Agreement") is entered into between NovaCart Commerce Private Limited (the "Merchant") and Meridian Payments Technologies Private Limited (the "Provider").

1.2 Purpose

The Provider will process eligible electronic payment transactions for the Merchant, calculate contractually permitted fees and taxes, aggregate captured payments into settlements, and remit settlement amounts to the Merchant's designated bank account.

1.3 Definitions

For purposes of this Agreement:

Term	Meaning
Approved Processing Fee	the fee expressly stated in Section 4 or a valid written amendment effective for the transaction date.
Business Day	a Monday through Friday on which commercial banks in Mumbai are open for settlement processing.
Captured Payment	a payment transaction accepted by the Provider and marked captured or equivalent final-success status.
Gross Settlement Amount	the sum of eligible captured payment principal allocated to a settlement batch before approved deductions.
Merchant Discount Rate or MDR	the processing fee rate applied to eligible payment principal, excluding GST.
Settlement	the batch-level payable amount remitted by the Provider to the Merchant's designated bank account.

2. Services

2.1 Payment Processing

The Provider may process card, UPI, netbanking and other payment methods enabled for the Merchant. Only transaction types explicitly covered by an approved commercial term are chargeable under this Agreement.

2.2 Source Records

The Provider will maintain payment, refund, settlement, chargeback and bank-transfer reference records sufficient to support transaction-level and settlement-level reconciliation.

2.3 No Implied Fees

Operational behavior, historic deductions, prior settlement files, or repeated charging practices do not by themselves amend this Agreement.

3. Transaction Governance

3.1 Effective-Dated Terms

Each commercial term applies only during its stated effective period. Where a valid written amendment changes a rate or amount, transactions before the amendment effective date remain governed by the prior version.

3.2 Contract Prevails Over Observed Behavior

If a settlement file or gateway report reflects a rate or fee inconsistent with the approved effective-dated term, the contractual term will be used to determine the expected amount unless a valid amendment applies.

3.3 Rounding

All INR fee, tax and settlement calculations will be rounded to two decimal places using standard half-up rounding. A monetary comparison tolerance of INR 0.01 applies unless another tolerance is expressly stated.

3.4 Evidence

The Provider will retain transaction identifiers, timestamps, fee fields, tax fields, settlement identifiers and bank references used to substantiate a financial calculation.

4. Commercial Terms

4.1 General

The fees below are the only processing charges applicable to the listed payment methods unless changed by a signed amendment under Section 12.

4.2 Domestic Card MDR

For domestic Visa, Mastercard and RuPay card payments captured from 1 January 2026 through 31 August 2026, the Merchant Discount Rate is 1.55% of captured payment principal.

- Rate: 1.55% (0.0155).
- Scope: domestic card payments only.
- Fee base: captured payment principal.
- Currency: INR.
- Monetary comparison tolerance: INR 0.01.

4.3 GST on Processing Fee

GST is charged at 18% of the Approved Processing Fee actually permitted under the effective commercial term. GST must not be calculated on an unsupported or contractually excessive processing fee.

- GST rate: 18% (0.18).
- GST base: approved processing fee.
- Monetary comparison tolerance: INR 0.01.

4.4 Other Enabled Payment Methods

Unless separately activated in writing, payment methods other than domestic cards are out of scope for automated fee verification under this base agreement. Their appearance in operational files does not create an implied rate.

4. Commercial Terms - Deductions

4.5 Permitted Settlement Deductions

The Provider may deduct only amounts expressly permitted by this Agreement from a settlement. Permitted categories are: Approved Processing Fee, GST on the Approved Processing Fee, successful refund principal, and the chargeback administration fee described in Clause 4.7 when applicable.

4.6 Unlisted Settlement Fees

Any settlement deduction not expressly listed in this Agreement or a valid written amendment is prohibited. The expected amount for an unlisted settlement fee is INR 0.00.

- No miscellaneous platform fee is permitted by default.
- No convenience fee is permitted unless expressly agreed in writing.
- No operational or manual-adjustment fee is permitted merely because it appears in a settlement file.
- Tolerance for unlisted fee checks: INR 0.01.

4.7 Chargeback Administration Fee

For each valid chargeback formally raised against a captured payment, the Provider may deduct one chargeback administration fee of INR 250.00. The fee may be deducted no more than once for the same chargeback identifier.

- Allowed fee: INR 250.00 per valid chargeback.
- Maximum deductions: one per chargeback identifier.
- Any duplicate chargeback administration fee is not contractually permitted.

4.8 No Automatic Rate Amendment

A repeated observed fee, changed operational rate, or settlement-system configuration does not constitute a contract amendment. Any commercial change must satisfy Section 12.

6. Settlement

6.1 Standard Settlement SLA

Each Captured Payment must be included in a settlement no later than T+2 Business Days after its capture date, unless the payment is subject to a documented hold permitted under this Agreement.

- Clock starts on the capture date.
- Only Business Days are counted.
- The SLA is evaluated at the payment level even when multiple payments are grouped into one settlement batch.

6.2 Settlement and Bank Arithmetic

For each settlement batch, the expected net settlement amount is the Gross Settlement Amount less only approved deductions attributable to the batch.

- Expected Net Settlement = Gross Captured Principal - Approved Processing Fees - GST on Approved Processing Fees - Successful Refund Principal - Approved Chargeback Administration Fees.
- Unlisted settlement deductions are excluded from the expected calculation.
- The bank credit corresponding to the settlement must equal the expected net settlement within INR 0.01.

6.3 Bank Reference Evidence

Where available, the Provider will include a unique settlement or bank transfer reference. If multiple bank credits are equally plausible and available evidence cannot deterministically identify the correct relationship, the match must remain unresolved rather than being force-assigned.

6.4 Missing Bank Credit

If a settlement is recorded as completed but no corresponding bank credit can be evidenced within the expected posting window, the item will remain an exception pending evidence.

7. Refunds and Disputes

7.1 Refund Eligibility

A refund may be initiated only against a previously captured payment and may be full or partial.

7.2 Refund Principal Integrity

For each successful refund, the Provider may deduct the refund principal exactly once from a settlement. No separate refund processing fee is permitted under this Agreement.

- Maximum refund-principal deductions: one.
- Refund processing fee: INR 0.00.
- Tolerance: INR 0.01.

7.3 Refund Amount Limit

The cumulative successful refund principal associated with a payment must not exceed the captured payment principal unless a separate approved credit adjustment exists.

7.4 Chargeback Integrity

A chargeback must reference an eligible captured payment. The administration fee permitted by Clause 4.7 may be deducted only once per unique chargeback identifier. Duplicate chargeback fees are prohibited.

7.5 Evidence Retention

Refund and chargeback records must preserve the originating payment identifier, status, amount, creation timestamp and applicable settlement deduction reference.

8. Reconciliation and Exceptions

8.1 Deterministic Reconciliation

The Merchant may independently verify payment, settlement, refund, chargeback and bank records against the effective terms of this Agreement.

8.2 Unresolved Evidence

Incomplete, conflicting or equally plausible evidence must remain unresolved until additional evidence is available.

8.3 No Presumption from Agreement Between Sources

Agreement between operational sources does not override an applicable contractual rate, fee, tax base, refund rule or settlement SLA.

9. Audit and Records

9.1 Record Retention

The Provider will retain sufficient transaction and settlement evidence for at least 180 days.

10. Confidentiality and Data

10.1 Confidential Information

Commercial rates, settlement records and transaction metadata are confidential.

11. Term and Termination

11.1 Term

This Agreement remains effective until terminated in writing in accordance with applicable notice requirements.

12. Amendments

12.1 Written Amendment Requirement

A financial rate, fee, tax basis, settlement SLA or permitted deduction changes only through a written amendment stating its effective date and affected clause.

Amendment A1 - Domestic Card MDR

Agreement reference: MPT-NC-2026-041

A1.1 Effective Date

This Amendment A1 is effective for eligible transactions captured on or after 1 September 2026.

A1.2 Replacement of Clause 4.2

For domestic Visa, Mastercard and RuPay card payments captured on or after 1 September 2026, the Merchant Discount Rate is revised from 1.55% to 1.65% of captured payment principal.

- New rate: 1.65% (0.0165).
- Scope: domestic card payments only.
- Fee base: captured payment principal.
- Currency: INR.
- Monetary comparison tolerance: INR 0.01.

A1.3 Historical Transactions

Transactions captured before 1 September 2026 remain governed by Clause 4.2 of the original Agreement at 1.55%.

A1.4 No Other Changes

All other terms remain unchanged, including GST at 18% of the Approved Processing Fee, the T+2 Business Day settlement SLA, refund-fee treatment, permitted settlement deductions, and chargeback administration fee.

Control-relevant term	Before 1 Sep 2026	From 1 Sep 2026
Domestic Card MDR	1.55%	1.65%
GST on approved fee	18%	18%
Settlement SLA	T+2 Business Days	T+2 Business Days

Schedule A - Control-Ready Commercial Summary

Term	Clause	Contractual expectation	Native entity
Domestic Card MDR	4.2 / A1.2	1.55% through 31 Aug 2026; 1.65% from 1 Sep 2026	Payment
GST on Approved Processing Fee	4.3	18% of approved processing fee	Payment
Unlisted Settlement Fee	4.6	Expected amount INR 0.00 unless expressly listed	Settlement deduction
Chargeback Administration Fee	4.7	INR 250.00 once per valid chargeback ID	Chargeback
Settlement SLA	6.1	T+2 Business Days from capture	Payment
Settlement / Bank Arithmetic	6.2	Gross less approved deductions; tolerance INR 0.01	Settlement
Refund Principal Integrity	7.2	Deduct once; refund processing fee INR 0.00	Refund
Refund Amount Limit	7.3	Cumulative refund <= captured principal	Refund / Payment
